POETRY.

Locks of Hair.

The following stanzas appeared a few years ago in the poet's corner of a Canadian newspaper. We think that all who read them will at once pronounce them worthy of preservation:

You've often heard me promise, Fred,
One day to tell you more
And from what treasured heads I shared
These treasured locks of hair,
Well, now the time has come at last
Your birth day festival
Has blithely come and swiftly passed,
And you shall know them all.

Twelve years have flocked since I heard,
In tearless grief my lone
Beside our dying sire, and you'd
A parent's care no more;
And I remember how you tried
Till at the medals kept,
To wake one father when he died,
And said "he only slept."

This shag can't lock, half dark, half gray,
I kept it from his home,
I've kept it sacred till to-day,
We will unlock it now;
And when you look upon it, Fred,
Still think you hear the voice
That with his dying accents said
"My Father, bless my boys!"

This brown braid belong'd to one
You never knew, my brother;
She only blessed her own home sun—
And died—our mother!
She left us—but oft in the left
A faired, tender flower;
But like a plant of sun herself
She withered from that hour.

Spring's birds around our mother's tomb,
Come just in time to blow,
We wear the flowers of autumn blooms
Upon our sister's grave.

My boy! your tears are falling fast
On yonder golden tress,
It is relic, and the last,
Of her lost tenderness.

And this long waving silken curl,
Ah! that you must not share;
You never knew the tangle girl
Whose gaze that silken hair;
My beautiful! my blessed one!
And also! thou, poor wanderer!
I cannot breathe "Pity will be done,"
But it was hard to say

Oh! by how weak and frail a thing
May the heart's depths be stirred,
How close and long will memory cling
To one light lock for word;
And one not them slight lock with more
Of spirit-meaning thought,
Than all the napkin letters of lore
That sages ever taught!

Well they are happy now, dear boy,
Over G. Wilson's exclusive free
They feel no more earth's hollow joy,
And cast mystery.
Our barks are struggling close to shore,
By storm and tempest driven,
But they have passed it's ocean roar,
And anchored safe in heaven.

Twelve Rules for the New Year.—The following rules are intended, mainly, for the guidance of young men and women:

1. Get married—if you can; but look before you leap. Love matches are romantic—nice things to read about—but they have brimstone in them, now and then; so says the Marrell, Esq.

2. Guile in overthrowing the fashion which transhes civility into love.

3. Go to church at least once a week.

4. Whenever you see a lecture advertised, set the evening upon which it is to be delivered apart for reading fifteen pages of a good book.

5. Circulate no scandal.

6. Avoid all kinds of spirits—particularly spiritrappers.

7. Hit the theatre, or other public place of amusement, do not level your opera glasses at strangers.

8. Never notice the clothing of persons attending divine worship, nor stand in front of the house of God after the services.

9. Never ask another man what his business is—where he is going to—where he came from—when he left—when he intends to go back, or the number of his dollars. You may inquire as to the state of his health, and that of his parents, sisters and brothers—but venture no further.

10. Defend the innocent, help the poor, and cultivate a spirit of friendship among all your acquaintances.

11. Never speak disparagingly of women, and endeavor to conquer all your prejudices. Believe all persons to be sincere in the religion which they profess.

12. Be economical, but not parsimonious nor niggardly. Make good use of your dollars, but not idola. Live within your means, and never borrow money in anticipation of your salary.

Accident—Two Men Drowned—Narrow Escape of two others.—On Wednesday afternoon of this week, Drs. B. P. Rankin and H. C. McMurphy, in company with two other gentlemen—one named Wagner, the other a stranger whose name we did not learn—undertook to cross the Mississippi, from Appanoose to this place, in a skiff. When near midway of the river, a large body of ice near them gave way, and came in contact with such force as to demolish it instanter, precipitating the inmates into the river, with the exception of Dr. Rankin who sprang from the boat fairly out on the ice, which immediately broke through with him—but sustaining himself with his arms upon the large fragments of it, drew off his overcoat and threw one end of it to McMurphy, who caught it, and was drawn in this manner among the cakes of running ice, where they were enabled to keep themselves above water until help could reach them from the shore.

Mr. Wagner and the stranger, after a few ineffectual struggles to save themselves, sank beneath the turbid water to rise no more.

Drs. Rankin and McMurphy, when rescued were chilled and sorerenous with exertions as to be almost insensible, and had add come to them but a little later, they too, doubtless, would have found a watery grave.

Dr. Rankin, it will be remembered, Secretary of the State Senate, and had been on a visit during the present adjournment, to his relatives in Pontoosuc.—*Fort Madison Plaindealer.*

☞ "Well, Caffee," said a minister to his colored servants, 'what were you during in meeting this afternoon?'

"Doing amen? Taking notes,' was his reply.

'You taking notes?' exclaimed the master.

'Sartin, massa; all the gentlemen take notes.'

'Well let me see them,' said he.

Caffee thereupon produced his sheet of paper; and he's masters found in scrawled all over with all sorts of marks and lines, as though a dozen of spiders, dipped in ink had marched over it.

'Why, this is all nonsense,' said the minister, as he looked at the notes.

'Well, massa,' Caffee replied, '*I thought so all the time you was preaching.*'

The Supreme Court of California has refused naturalization papers to a Chinaman on the ground that the Chinese are not white persons within the meaning of the naturalization laws.

Last School-Law Unconstitutional.

By a recent decision of our Supreme Court the 130th section of the Common School Law of 1852, as we have before stated, has been declared unconstitutional.

That section provides that "The voters of any township shall have power at any general or special meeting to vote a tax for the purpose of building or repairing school houses, and purchasing sites therefor, providing fuel, maps, furniture, apparatus, libraries or increase thereof, or to discharge debts incurred therefore, and for continuing their schools after the *public funds* shall have been expended, to any amount not exceeding annually, fifty cents on each one hundred dollars of property, and fifty cents on each poll."

The question was raised by a tax payer, for the purpose of enjoining the collection of a tax assessed by a township by a vote of the people upon a proposition to raise fifteen cents to the one hundred dollars for School purposes. The Circuit Court granted the injunction. The County Treasurer and the Township appealed to the Supreme Court.

The latter Court, in their decision, say:

Before we proceed to the consideration of the unconstitutionality of this section, we would remark, that its phraseology seems to indicate that the legislature did not regard the taxes to be raised by it as being of a public character, for one of the specified causes for making the assessment is "for continuing their schools after the public funds shall have been expended" thus making a distinction between the public funds" and those contemplated by the section. It was evidently the intention of the framers of the Constitution to place the common school system under the direct control and supervision of the State, and to make it a *quasi* department, of the State government.

To control and manage this department, the Constitution provides for the election of a Superintendent of Public instruction by the popular vote, and enjoins upon the Legislature the duty of providing by law for a general and uniform system, wherein tuition is to be without charge, and open to all.—Placed in this condition, the State occupies the position of a parent to her children, whose duty it is to see that all are equally provided with means of education. For the purpose of supplying such means, the Constitution authorizes her not only to use the funds heretofore set apart for that purpose, but to compel the older brothers of the same family, by "a uniform and equal rate of assessment and taxation," to aid her in carrying out the scheme; and as the diffusion of knowledge and learning its regarded by the Constitution as essential to the preservation of free governments," it would seem but just that those who enjoy such a government, should equally assist in contributing to its preservation. The inhabitants of any county or township should not be compelled to bear greater burdens than are borne by all. Again if the provisions of sec. 130 are to be regarded as constitutional, the uniformity of the common school system would be at once destroyed. In some townships, taxes would be assessed by vote, and in others not—in some, a sufficient amount might be raised to support their schools, six, nine, or twelve months, so that there would really exist no uniformity, either as to the time the schools should be kept, or as to the amount of the taxes to be paid by the inhabitants of the respective townships.

But the want of uniformity would not be the only evil resulting from such a construction, as the power of controlling schools would necessarily, to a great extent, pass from the State and the Superintendent, into the hands of the local authorities of the different township. Should the Legislature pass a law for the assessment of a mere nominal tax, (a supposition not remote from probability,) the whole school system would be left to the mercy of a popular vote of the different townships, and thus all the evils of the old system, which were intended to be avoided by the new Constitution—inequality in education, inequality of taxation, lack of uniformity in schools, and a shrinking from legislative responsibilities—would be the inevitable result. It is useless to urge that the operation of sec. 130 is and might be uniform throughout the State.—The character of its provisions renders such a result impossible; and even if it should assess the same rate of taxation, the assessment would be the no less unconstitutional on account of such an accident.

It is important that every county Treasurer and Auditor should know this decision immediately. The collection of taxes is rapidly going on and litigation will be saved by making the proper corrections.

All the evils of incorrect duplicates and void tax sales are in prospect. What may be the result of this decision, we cannot foresee, aside from the offents upon the school law itself. If the principle of this decision be applied to the road law, it would seem that the tax raised for that purpose are illegal. Other township laws may be in a like situation.

Whatever may the result for the present, no doubt general laws are the best. Uniformity of enactment will secure uniformid obedience and certainty of enforcement.

What Will Take the Scent out of Clothing.—Sitting on the piazza of the Cataract, was a young foppish-looking gentleman, his garments very highly scented with a mingled order of musk and cologne. A solemn-faced, old-looking man, after passing the dandy several times, with a look of aversion which drew general notice, suddenly stopped, and in a confidential tone said:

"Stranger, I know what'll take that scent out of your clothes: you—"

"What! what do you mean, sir?" said the exquisite, "fired with indignation," starting from his chair.

"Oh, get mad, now—swear, pitch round, fight—just because a man wants to do you a kindness!" coolly replied the stranger. "But I tell you I do know what'll take out that smell—phew! You just bury your clothes—bury 'em a day or two Uncle Josh got afoul of a skunk, and he—"

At this instant there went up from the crowd a simultaneous roar of merriment, and the dandy very sensibly "cleared the coop," and vanished up stairs.

Champagne will be abundant the coming season judging from this account given by the New York Post:—

"While on a visit to Ipswich, we observed that almost every man there who owns an orchard was engaged in making cider—both teetotalers, and anti-teetotalers, and barrels for the contraband juice were lying around in abundance. Those engaged in the business, who have heretofore advocated the cause of temperance, excuse themselves on account of the fruit decaying so rapidly this fall; and the sale of it is so very dull, that they are obliged to make it into cider in order to save themselves from loss. Touch a man's interests and where are his 'isms?' Verily, this is a funny old world."

—George W. Green, a broker of Chicago, has been on trial upon charge of murdering his wife, who died suddenly a few months ago under circumstances creating strong suspicion of having been poisoned.—The trial was very lengthy, and of absorbing interest to the citizens of the place, he being a very wealthy man. The case closed at 5 o'clock on Saturday evening last, and the jury returned a verdict of Guilty at eleven. The finding is in accordance with public sentiment, Hanging is the punishment in that State

Jackson Convicts and Bogus Money.

—A day or two since we referred to the beautiful state of things that exist in the Jackson State Prison.—Since then a fact has come to our knowledge that will go still further than anything ever said to show not only the total absence of everything like discipline in the prison, but that there is a system of demoralization prevailing amongst the convicts, such as has not been witnessed in any other prison in the Union. We are informed upon good authority that they have actually been engaged in the manufacture of *bogus money*, within the last few weeks, and perhaps for the last few years! The money is made by the convicts and put in circulation through the agency of a mamby the name of Jones, who has been in the habit of visiting the prison for that purpose.—How this business could be carried on without the knowledge of some of the officers, we leave our readers to imagine. If they did know it, they are as criminal as the convicts themselves—if *overshoed the civil power*, and compelled a conviction against justice and law. *He had numerously offended a unscriptus and cruel under* Mark Iow, before his accusers and judge, and in reply to the Roman governor. He scorns the imputation of secrecy! The cherished experiments of his foes—secrecy and intolerance—have his prejudices and repeaks them! It was in such a frame of mind that He was carried forth and crucified.

We are told that many clergymen belong to the secret order of the present day—the "Star-chamber" where political offenders are dooms unheard, and religious opinions graduated and prescribed upon pain of disenfranchisement. We know that many of them openly encourage the doctrines, and that pulpits, from which should emanate only calm counsels and peaceful precepts, are now made by fanatical clergymen to ring with the prejudices and passions of fanaticism and the threats of excited partisans. This we know, and read of daily; and it is in condemnation of such an examples that we hold up the dying words of the Saviour of man.

The history of the Nation, apart from his direct and civil Commission with religion furnishes many sublime lessons and warnings; but nowere is his character so luminous and so grand as in his suffering for the sins of others, his tolerant of different opinions, his universal charity, his welcome to the stranger, and his discouragement of all secret and clandestine proceedings, especially when there interfere with establish rights and laws. How many of our modern preacher-politicians think of this while founding on the crusade against all who worshipped in a way that differs from their own? Will it be out of place if we introduce, for the edification of these reverend leaders, the following passages from the sermon on the Mount? We hope these teaching have not been forgotten in the new zeal of the clergy for temporal and worldly affairs:

"Blessed are the peace-makers; for they shall be called the children of God.

"Blessed are they which are persecuted for righteousness sake: for theirs is the kingdom of heaven.

"Ye are the light of the world. A city that is set on a hill cannot be hid.

"Neither do men light a candle and put it under a bushel, but on a candle-stick; and it giveth light unto all that are in the house.

"Let your light so shine before men that they may see your good works, and glorify your father in heaven."

Many incidents in the wonderful career of the Son of God, who dwelt among the lowly and the poor, and taught "peace on earth" will materially illustrate his adherence to these teachings. Going to Jerusalem, on one occasion, he sent some of his disciples forward to a village to prepare supper and lodging. The people, however, fearing that he was going to the temple of Jerusalem, refused to afford him the necessary accommodations. This greatly offended the disciples, who applied to their Master, asking if they should not call fire from heaven to destroy such inhospitable people. He reproved the intemperate and misguided zeal of his disciples saying, "Your zeal is not of God, because it is not of God, because it is not according to knowledge." How many of our political clergy have forgotten the good Samaritan when they rant at Catholics, or rave against the people of the South, or hurl their anathemas against those who refuse to accept their ideas of Bible construction?

That there are numbers of pious and Christian men in the ranks of the American clergy who deplore and protest against this and prostitution of sacred functions to political purposes, we are gratified to be able to admit. They see and they feel whither it is leading, and where it must end; and they know that when the teachers of religion are once fully enlisted upon the side of political polemics, the decay of national morals will mark also the approach of national dissolution. To these men the nation looks in such a crisis as the present. They have a duty to perform, at least as high as that to which they are primarily dedicated. *They must save the American people from being lost in the dangers of inhoiness by recalling the American clergy to a sense of their duty to God and their country.*—*Washington Union.*

The Mesilla Valley Territory, which the United States purchased from Mexico, was formally taken possession of by the United States authorities, on the 15th of November. The American flag was hoisted and saluted, and Gov. Merriweather made an appropriate address to the person present. The order of Gen. Garland, proclaiming that the laws of the United States was extended over the valley, was printed in English and Spanish and extensively circulated. The eastern boundary of the United States, possession in that part of the continent is the latitude of 31 deg. 52 min.

The Minie Rifle.—The Cleveland Herald is informed by an intelligent officer of the army that the Minie Rifle ball is being adopted into our service, upon an improved plan.—Instead of a shard iron tube inserted in the ball, it is to be made with a cavity, into which a portion of the charge of powder will be forced, and its explosion does the whole work of spreading the ball. Instead of a grand system of fraud which himself and others have for years been practicing upon the practicing upon the Indians in various portions of the country."

Statistics of 1854.—The New York Herald estimates the loss of property from fire in the U. States, during the past year at $25,000,000. The number of murders in the United States during the year 1854 was 682, executions, 81; 587 persons were killed by steamboat accidents and 224 wounded, being a considerable increase over the preceding year; 10 persons died in the United States during the past year each of whom had attained 100 years of age; 186 persons have been killed on Railroads, and 589 wounded; the total number of accidents was 193; the number of lives lost by burning buildings was 171.

Extravagance.—As an indication of extravagance which has prevailed in the country for some time, on importing house in New York has write a letter stating that the amount of duties paid for French artificial flowers for the first quarter of the current fiscal year was almost double the amount of duties paid on railroad iron.

Backing out!

A Know-Nothing organ, called the Cynosure, published at Carrollton, Ohio, has died out for want of support. The editor takes leave of the paper and the Know Nothing organization, by saying:

We have reflected carefully upon the whole subject, and availed ourself of more reliable information, and are convinced no danger is to be apprehended (this we always held) from the usurpations of the Catholic Church more than any other religious body. * * * It is a conviction with us, which we boldly avow, the end to be gained by this society does not by any means warrant its present very exceptionable organization. But, if its secrecy could be made consistent with the object in view, its relation to the remainder of the political world has not been such as we were led to suppose it would be. In this locality, by the adroit management of persons for whom we have nevertheless a warm feeling the order was made to play only into the hands of a few fleet mates. This has been the result almost everywhere and it is now truly little more than an adjunct of whiggery. We put upon record our disclaimer forever, with the Know Nothings. This is done voluntarily. We know our duty.—We will do it—without regard to the consequence. We do not look to conceal the displeasure of any man, when we conscientiously differ with him.—We care not for aspiring machinators—we will lose nothing.

Thus slowly and surely the rotten humbug is exploding.

A ludicrous thing occurred among the Know Nothing fraternity in Washington City a few days since. One of the chief men in the establishment of the National "Organ" of the society, since has no mistrust for the fierceness of its sectional, proslavery and prescriptive spirit, is an Irishman named ———, who has put money in his purse by pursuing the basest trade of a traitor. Man of ——— Catholic Charity, an honest penny in a twice, finds he has led the funds of setting up the organ, and constituted himself chief of the committee for managing its concerns.—Things went on very well until the receipts of funds from the slave States enabled the Organ to stand alone, and then Mac received notice of the revocation of his *exequatur*. He was shown the door of the establishment, and has not since seen the inside of it.

Carrots for Horses.—The English stable keepers are beginning to find that these vegetables form a cheap and nutritious food to mix with grain for the horses. It is better, it is said, to give a working horse a peck of carrots and four quarts of oats or corn meal a day, than to give him six quarts of meal.

Temple Found in the M. E. Church.—Another branch is expected in the Methodist Church. Br. Good, editor of the New York Christian Advocate, in directing the opposition to the appropriations of missionary money to the preachers laboring in their slave holding conferences, says:

"We have seen strange things in the lapse of three score years and ten, but this caps the climax of the marvelous; and though we are no prophet, nor the son of a prophet, we venture to predict that matchless one knowing in our church—agitations concerning, and disruptions, such as we have never witnessed before."

When General Whitfield, Indian agent, visited the Cheyenne and a few other wild tribes of Indians to pay their annuities this fall, they informed him that the next year he must bring them one thousand white squaws, and the Indians they would take in money. They prefer a white squaw to a blanket.—Sensible Fellows!

New cent pieces are being issued from the Mint. They are considerably smaller than the old cent pieces, and form a really beautiful and attractive copper coin. On one side is the head of liberty, and the thirteen stars being omitted, the surface is plain and polished. The reverse is the same design as the old cent, but brighter and much more finished. There is a certain amount of alloy mixed with the copper, and the perfection of the day gives to the coin a finish and elegance that has never heretofore been attained in our copper coinage.

More Paupers and Criminals.—The Committee on Commerce in the House of Representatives have prepared, and will soon report a very important bill on the subject of alien paupers and criminals. Under the provision of this bill, it is provided, no foreign passenger shall hereafter be admitted into any port of the United States unless he shall have the certificate of the American Consul of the place from which he comes, that he has not come over previous to his departure from an inmate of a jail or workhouse, and that he has not, for four years previously, been convicted of any criminal offence, except such as are designated political crimes. If any captain shall bring such persons without the required certificates, he shall be liable to fine and imprisonment. The vessel in which such persons arrive shall be subject to forfeiture.

"A King of Shreds and Patches."—A gentleman, in a private letter from the Sandwich Islands, speaking of King Kamehameha, says: "He lets around the town of Honolulu; peeps into a tavern, and is ready to take a 'nip' with anybody that asks him. He isn't worth a 'continental,' and nobody wants to take his bed at his auction."

Indian Robbers.—The Commissioner of Indian Affairs makes a full expose of most extensive robber in which certain parties have of late years been perpetrating upon Indian, tribes especially the Menomonees. A letter to the Cleveland Pla in their says:

"One of the actors in that damnable outrage upon these poor ignorant savages is a prominent member of the Baptist Church and a wheel-horse in the Whig party and served that same party in Congress some four years since. He is somewhat famous in Indiana—his own State—as a Whig stumper. The base usher with the Menomonees is only a part of a grand system of fraud which himself and others have for years been practicing upon the practicing upon the Indians in various portions of the country."

Accidents.—Rev. Dr. Bacon, of New Haven, Conn., lately delivered a discourse of great ability with particular reference to what he considered to be the ungenerous and unchristian prejudice against foreigners which have lately exhibited itself in some parts of the country, and which he regarded as opposed to the best interest of the country and to the precepts of the Gospel.

Fort Wayne Sentinel.

SATURDAY, JANUARY 26, 1855.

The Dem. State Central Committee, at a meeting lately held in Indianapolis, resolved that it was inexpedient to call a Mass convention at present, as had been suggested. Judge J. W. Borden was appointed on the committee, in place of the late Jos. Sneden, Esq.

THE LEGISLATURE.—On Monday last Charles K. Sturgis Esq. took his seat in the House, as member from Allen Co. The election of U. S. Senator has been postponed until the 22d of February. Several resolutions have been offered in both branches in relation to the Free Banking Law. A disposition evidently exists to amend the present law and strip it of its objectionable features, if the members can only agree on the best course to pursue.

Fort Wayne & Chicago Railroad.

In another column will be found a portion of the report of the Chief Engineer of this work, to which we direct attention, as affording much valuable information in relation to the condition and prospects of the road. It will be seen that these are of the most favorable nature; and though, owing to the pressure of the times, the company has been compelled partially to suspend operations, yet we rejoice to add that there is every probability that in a few weeks operations will be recommenced. We understand it is the intention of the directors to concentrate their forces on the eastern division of the work, so that each portion, as soon completed, can be put in profitable employment.

The grading of the whole line is more than half completed, and the whole of the iron purchased and paid for. A proportionably small amount of means would enable the company to finish the work in a few months.

It must be evident, from the immense travel on the Central and Southern Michigan Railroads, that this road, running nearly parallel, on better ground, to direct a route to New York, and far shorter for central and southern Ohio, Philadelphia, Pittsburgh, Baltimore, and the whole of Pennsylvania, when completed, will do a profitable business. It will also open to Philadelphia and Pittsburgh a direct connection with Chicago and the entire northwest, and do more to place the former on an equality with New York, as regards western trade and markets, than any other railroad that could be constructed. Its completion will nearly double the trade of the Ohio & Pennsylvania and Pennsylvania Central Railroads, and vastly increase the value of their stocks.

The attention of the Philadelphia and Pittsburgh capitalists has already been called to these facts, and strong hopes are entertained that they may be induced to afford some material aid to an undertaking which will do so much to enrich them and increase their commerce—and which, but for their timely assistance, may have to languish for months, or even years. Though not proverbially enterprising or quick sighted in matters of this nature, we think they cannot fail to see that in this instance their own advantage will prompt a liberal course of policy. We have therefore sanguine hopes that the means necessary will speedily be forthcoming, and that the Fort Wayne & Chicago Railroad will in a year, or 18 months at the farthest, be in profitable operation.

Ohio & Indiana Railroad.

At a meeting of the stockholders, held at Bryan on the 8th inst, and at which the following were elected directors for ensuing year:—Wm. Robinson, Jr., of Pittsburgh, Pa.; S. Hanna, of Fort Wayne, Indiana; Pliny Hoagland, of Fort Wayne, Ind.; P. S. Marshall, of Bucyrus, Ohio; R. McKelly, Upper Sandusky, Ohio, T. K. Jacobs, of Lima, Ohio; D. W. Bart, of Van Wert, Ohio. Mr. Bart is elected in place of Dr. Merriman, who declined re-election. The others were all members of the old board.

The new board organized and elected S. Hanna President; J. R. Straughan Superintendent; —— Davis, Secretary and Principal Clerk; G. Quimby Treasurer.

The principal office of the railroad has been removed to Fort Wayne.

We are gratified to learn that the business and prospects of the company fully equal the most sanguine expectations of its friends. The number of passengers carried is unexpectedly large, and the amount of freight offered, tasks to the utmost the capabilities of the company for its transportation. 200 additional freight cars have been put upon the road, and more are in course of construction. A daily freight train, heavily laden, now arrives and departs regularly. The receipts of the company for the current year will reach $250,000 or $300,000

Lectures of the Young Men's Literary Association.—In consequence of the sudden indispositions of Rev. J. Edwards, who was to have lectured on Thursday evening, J. K. Emmerson, Esq. took his place, and delivered an exceedingly eloquent and interesting lecture on Socrates; giving a vivid picture of Athens in its palmiest days; its philosophers and philosophy; Socrates,—his habits and appearance, his, industrious search after and dissemination of knowledge and truth, &c&c. It was truly an elegant and chaste production, and stamps its author as a lecturer of great power and eloquence.

Unless notice to the contrary is given, Rev. Mr. Edwards will lecture on Monday evening on the "Aspects of Society."

The celebrated oriental traveller, poet, and author, BAYARD TAYLOR, will give a lecture on Saturday evening next, Jan. 27th, on "Japan" and on Monday, the 29th, on "The Philosophy of Travel." From the great fame of this gentleman, his popularity as a lecturer, and the interest felt on the subject of Japan, of which so little has hitherto been known, we anticipate for him a crowded house.

THE LATE MEADER.—We understand that Madden has confessed that he struck the fatal blows which deprived Mr. Dunbar of life. He as well as his companions in guilt, Rosaine and Keefer, are said to be very much depressed in spirits, and begin to realize the awful condition in which they have placed themselves. Truly the way of the transgressor is hard.

Mr. Dunbar was last a resident of Mahoning Co, Ohio, and has not resided in Mount Vernon for a number of years past. In our account of the murder we described him as from the latte place, which has led some of our Ohio exchange into error in supposing him to be a gentleman of the same name, now living in that place.

MISSOURI.—They have some trouble in electing an U. S. Senator in this state. On the 17th ballott the votes stood—Dodphan (whig) 58, Atchison (dem.) 56. Benton 31. No choice.

Resignation of Mr. Soule—Mr. Soule has resigned his mission to Spain and will return home Hon. J. C. Breckenridge of Kentucky has been nominated as his successor.

U. S. SENATORS.—Hon. David L. Yulee, democrat, is elected Senator from Florida, in place of Morton, whig, whose term expires on the 4th March next.

REV. JAMES HARLAN, fusionist, is elected in Iowa, in place of Gen. Hodge, democrat.

Death of a Senator.—Hon. Moses Norris, U. S. Senator from New Hampshire, died in Washington City, on Thursday the 11th inst. of disease of the heart. New Hampshire is now without a Senator in Congress, one vacancy having previously existed in consequence of the sudden death of Mr. Atherton.

Death of Wilson S. Hougland Esq.

We regret to have to announce that this amiable and worthy young man is no more! He died at Millersburgh, Holmes Co. Ohio, on Friday, the 12th inst, aged 25 years and 6 months

The deceased resided amongst us about five years, and had secured, by his gentlemanly deportment and amiability of disposition, many warm friends, to whom the news of his death, though not unexpected, will be sad tidings. For the past two years his health had been failing—that insidious complaint, consumption, had fastened upon him. Last winter he visited the South, and felt some relief from the genial climate. On his return, he was nominated by the democrats of Allen Co. to represent them in the Legislature, and triumphantly elected. The excitement of the canvass appeared to rally his energies, but he subsequently sank under his growing malady. He returned to the place of his birth, and there among his friends calmly surrendered his spirit to his Maker.

His father died while he was young, leaving a widow and five children, of whom the deceased was the elder. For some years he assisted his mother in the management of the farm and support of the younger children. He afterwards studied law under Hon. Moses Hougland, his uncle. In 1850 he was admitted to the bar, and shortly afterwards settled here. Had his life been spared, a brilliant future undoubtedly would have been his lot. His talents and popularity would have secured him an exalted position among his fellow-citizens. But he has fallen on the very threshold of life—in his early manhood! Peace to his remains!

Ohio Democratic State Convention.—The Democrats of Ohio held a Convention at Columbus on the 8th inst, and made nominations for State officers. Gov. Medill was re-nominated for Governor, James Myers, of Lucas county, was nominated for Lieut. Governor; Judge Kennedy, of Belmont, Supreme Judge, and R. H. Warden for the unexpired term of Judge Caldwell; Mr. Morgan for Auditor; J. G. Breslin, for Treasurer of State; Wm. Trevitt, Secretary of State; Col M'Cook, Attorney General; Mr. Steedman, of Lucas, for member of the Board of Public works.

Resolutions were adopted endorsing the Baltimore Platform, condemning Know Nothingism, and defining the democratic position in relation to the true policy of the country in encouraging foreign emigration.

The convention was numerously attended, and its proceedings marked with great unanimity.

A good Time coming! Sanford's fire-footed New Orleans Opera Troupe will be here on Tuesday, January 30th, and purpose giving a series of operatic entertainments, at Coleridge's Hall. The troupe has long been considered the best of that class in the United States, and enjoys an enviable reputation as musicians, comedians, and humorists. The lovers of music and fun have a rich treat in store.

THE STATE SENTINEL.—Oliver H. Torbet Esq. has withdrawn from his position as editor of this sterling democratic sheet to enter the practice of law. He is succeeded temporarily by George P. Bond, Esq. Mr. Torbet is an able writer and true democrat, and has done much to give the State Sentinel its present popularity. Mr. Bond is favorably known to the public as editor of the Western Dem. Review.

The State Sentinel has been sold to Messrs John C. Walker and C. W. Cottom, of the Laporte Times. It will pass into their hands on the 1st March next, when its name will be changed to the "Indiana Times." Both the daily and weekly will be enlarged, and such other improvements made as to render the paper worthy the support of the democracy of the state. From our acquaintance with them as editors of the Laporte Times, we feel no hesitation in cordially recommending them to the public, and wish them abundant success in their new undertaking.

Humanity in the City:—A Series of Discourses, by E. H. CHAPIN. Published by De Witt & Davenport, New York. Handsomely bound, with an excellent portrait of the author. Price $1 00.

The discourses are upon—

The Lessons of the Street.
Man and Machinery.
The Strife for Precedence.
The Symbols of the Republic.
The Springs of Social Life.
The Allies of the Tempter.
The Children of the Poor.
The Help of Religion.

These practical discourses by this eminent divine, speak not only to the hearts and consciences of men, with a vigor and power not to be misunderstood, but are also clothed in such chaste and elegant language as to be most valuable as contributions to our highest order of literature. The book is elegantly printed on beautiful paper, well bound, and will make not only a useful but a choice present.

THE BOSTON POST states that some important changes in the government of the Methodist Episcopal Church are now being agitated.—Among others, that the general conference shall be composed of an equal number of clerical and lay members; the annual conferences to be reduced to a practicable and convenient size; the presiding elders to hold semi-annual conferences; and the preachers to be re appointed for four years successively to the same place if desired.

☞ If to these should be added an obligation to the preachers to "preach Christ and him crucified," and eschewing politics, nebraska-ism, niggerism, and fusionism, confine themselves while in the pulpit, to the gospel and the spread of the glad tidings of salvation, there would be a decided improvement on the present practice of that church. By driving out many of the ambitious, middle-aged, hypocritical demagogues who now fill their pulpits, and supplying the place with christians, much good might be effected; a reproach wiped from the church; and its vital piety and usefulness literally increased. As the friend of religion we go in for these reforms.

BALLOU'S PICTORIAL—*Late Gleason's.*—The new volume of this popular illustrated work commences under favorable auspices, and bids fair to exceed its predecessors. Mr Ballou, who has been its editor for some years, having now become its proprietor, has changed its title from Gleason's Pictorial to Ballou's. He has engaged the services of the well-known Francis A. Durivage as assistant editor, procured paper of a better quality these heretofore engaged additional artists to execute his engravings, and shows a determination to make his Pictorial eminently worthy the liberal patronage it receives.

It is published weekly by M. M. BALLOU Boston, at $2.00 per annum. We have raised a club, and can furnish it for $2 00.

Indiana Free Bank Agency.

INDIANAPOLIS, IND, *January 8, A. D. 1855.*

The late Convention of the specie paying Free Banks, held in this city on the 4th day of January, unanimously passed the following resolutions.

Resolved, That a committee of three be appointed to classify the suspended free banks, and that the banks of this Association will take their issues at a fair price but will not pay them out.

2. That an agency be established at Indianapolis to which we will remit said uncurrent notes

3. That said agency shall convert the same into bonds to be sold on joint account, or disposed of as directed by the party making the remittance.

4. That if any suspended banks refuse to permit the delivery of her bonds on surrender of her notes, said agent shall cause said notes to be protested, and the bonds to be sold as speedily as the law will permit.

The undersigned have been selected and accepted the agency contemplated in the above resolutions, and have taken room, second floor, Temperance Hall, in which to transact such business.

The necessary books, forms and circulars are now being prepared, and by Saturday, January 13th, the agency will be ready to go into operation. Parties at a distance may remit at once.

The agents intend faithfully to carry out the wishes of the Convention, to wit. To remove from circulation all suspended and broken bank paper and to supply its place with good, solvent, specie paying currency; to facilitate the latter the agency condemns, at as early a day as possible, to check on New York for all specie paying free bank paper at satisfactory rates.

Fort Wayne & Chicago Railroad.

REPORT OF THE CHIEF ENGINEER.

The entire road, with the track laid and prepared for through business, with partial ballasting, is estimated to cost $2,638,418, including right of way and depot grounds, with commissions, exchange, insurance, and all other expenses connected with the purchase and delivery of iron rails. With full equipment, depot buildings, ballasting and fencing, it is estimated to cost $3,113,148, averaging $21,581 per mile. (See estimate in detail appended.)

The right of way for the whole route has been arranged, as far west as the vicinity of Chicago, and, with one exception inconsiderable in amount, has been paid for. Thence to our proposed depot grounds, near the heart of the city, a large proportion has been settled and paid. Ample grounds have been purchased for the outer depot, affording a favorable connection with the lake and canal commerce. At Fort Wayne, and all important points intermediate, depot grounds have been procured.

On the entire line to Chicago the labor of grading, and the delivery of cross-ties, is almost two-fifths performed.

The iron rails purchased are of the common pattern of heavy T rail, weighing 60 lbs. to the yard. The estimates and pleasure rail made with a view to a first class road, in all respects. The physical characteristics of the road are most favorable. They may be stated briefly as follows:

Total length, 147 miles, of which 141 miles are straight line, and but three miles of curved line; shortest radius of curvature, 3,820 ft.; total deflection is but 207 degrees; bend account, going west, 627 ft.; total ascent, going east, 880 ft.; max'mum grade, 26.4 ft. per mile. The financial of the country is favorable for good drainage, and excellent gravel for ballasting is found on the line of the road. The avoidance of large water-courses cheapens the route, both in construction and repair; only 1,109 feet of trestle bridging is required on the whole road.

The directness of the route, for all practical purposes a straight line, from the southern hand of the lake to Fort Wayne, removes all apprehension of "out-ofs," and guards against any necessity for making branch roads.

From these features it will be noticed, that in all the elements favoring the highest rate of speed and the greatest freedom from accidents, this route is not surpassed, if indeed, it be equalled, by any other of the same length, even on the level plains of the West.

The same favorable characteristics as to grades and curvature continue by this route in Ashtabula, Geauga, Cuyahoga, Medina, Wayne, Stark, Tuscarawas, Coshocton, Licking, Fairfield, Franklin, Madison, Clark, Jasper, Newton, Lake, Porter, Laporte, Stark, Wayne, Allen, Adams, Wells, Huntington, Whitley, Kosciusko, Marshall, Starke, Laporte, Porter, Lake, Cuyahoga, Lorain

EVERSON & CO.'S

United States Liniment

For Man and Beast.

This liniment is unsurpassed for power and efficacy, its ability to promote healthy action in all animal tissues is truly wonderful, it speedily reduces inflammations, Swellings, Inflamed, &c., &c.; is used in a glandular Swelling, whether in man or beast, it Gout, Rheumatism, Neuralgia or Tic Douloureux, Lumbago, Sciatica or Hip Gout, and all Spinal Weakness, for severe Pains in the side or limbs, Sprains, Bruises, Contusions, Wounds, Stiff Joints &c.

For WEAK BACKS it has acquired amazing notoriety, and can in all such complaints claim.

As a Veterinary or Horse Medicine, its superior efficacy is readily discovered, and highly appreciated. We venture to the prediction that the powers of this liniment are unequalled by any preparation now extant, and from our experience in its use, and intimate knowledge of medicines of this class, and of medicines generally, we cannot conceive the possibility of its being surpassed by any agent or compound from materials of the present known Materia Medica, that can be safely used. Price 25 Cents per bottle.

EVERSON & CO.'S

FAMILY HEALTH RESTORATIVE.

Anti-Dyspeptic and Anti-Bilious Pills.

The pleasantness of operation and efficiency of these Pills must long render them a favorite family medicine. For WEAK AND DELICATE FEMALES, whether as an aperient, cathartic or alterative, they act admirably, not only purifying the blood by removing obstructions from the liver, but after they have done their cleansing they tone the stomach and create an appetite, thus imparting fresh vigor to the constitution. They have been used in our practice with the greatest success in all bilious derangements, and derangement of the Kidneys, Dyspepsia and Liver Complaint, Costive Diarrhœa, Worms, &c., Plethora or Fullness of the Head, Dizziness, Sick and other Headache, for those pains in the left side or back, peculiar to females, and in all cases where an aperient, or cathartic, or alterative are needed they are invaluable.

Every family requires more or less of medicine of this character; here, then, is one that can be relied upon, having been used in practice with great satisfaction for many years. It is compounded of vegetable and safe ingredients. NO MERCURY, ENTIRELY VEGETABLE, and scientifically by experienced hands. Persons travelling should be provided with these Pills. Their action will not interfere with attention to business, and by being used occasionally as an alterative or laxative, or aperient will ward off Billious and other Fevers, and preserve health. Price, Twenty Cents per box.

IMPORTANT DISCOVERY

By WM. K. EVERSON, M. D.

The Cause of Ague or Chills and Fever Destroyed: The necessity for QUININE and ARSENIC entirely superseded.

EVERSON & CO'S

Chrono Thermal or American Remedy

For Ague or Chills and Fever.

THIS is no common patent nostrum, but an important scientific discovery of immense value; and from present indications is destined soon to become the only reliable cure for Fever and Ague. The Author our great Ague district. It is hailed as THE REMEDY, and is greeted with enthusiasm, no less for its invigorating the influence upon the system generally, than the remarkable cures it produces. Seldom, indeed, has any medicine been received with such popular favor. It is perfectly safe and harmless even for infants. Not one person out of fifty will have a chill after the first dose during that season, if in the year, in the worst Ague districts. Do not let the wily your health by the use of Quinine. Assume, Tinctures, Cathartics or Emetics, but with THE AMERICAN REMEDY, the great antidote to the specific poison, attack and destroy the cause of the disease and the effects will cease to exist. No bad or painful sensations follow, vomiting or sweating takes place when this medicine is taken, but a sure and speedy restoration to health.

We are almost daily in receipt of certificates and orders like the following. These speak for themselves.

Andrew Maxwell of Franklin, O., had Ague for one year; the last two months shook every day, and forming dreadfully had most physicians and patent medicines in vain. One box of our American Remedy made a well man of him. Mr. Squires, Mr. Tabbals and son, and others of the same place, all cases of long standing, testify to the permanence of their cures, some one year, some eighteen months since, and to return, after trying everything else without benefit.

Geo. Barns of Dayton Ohio, testifies that himself and four others, all cases of long standing, have been cured by the American Remedy, their cures having resisted all other treatment.

Under date of Sept. 24 Mr J. C. Wilson of Rayesville, Missouri, writes: "I disposed of the four boxes of Ague Remedy in less than three weeks after your agent left here, and went you to forward immediately a gross and some more Liniment and some Circulars. If your Ague Remedy sells with the favor elsewhere it does here, it will exceed in sale anything I know of."

PORT HURON, Michigan, Aug. 28, 1854.

Dear Sir.—More is probably not plenty in the States where Agues is more prevalent than here nor sickness harder. I have sold the half gross you sent me, please send me one gross this time. Never in my recollection has any medicine met with such rapid sale as the American Remedy. I have not heard of a single failure, but lots of cures.

Respectfully yours, CHAS. FONDY.

Beware of counterfeits—none are genuine without our signature upon the box

BEAR PREMIUM

DAGUERREOTYPES

Mr. A. McDONALD presents his sincere thanks to the citizens of Fort Wayne and vicinity for their liberal patronage, and respectfully invites them to call and examine specimens of his pictures, and see the perfection to which the Daguerrean art has arrived.

His Pictures exhibited at the late State Fair at Lafayette, were unanimously admitted to be far superior to any collection of pictures there, for which he was awarded a Premium and Diploma.

Those who want perfect copies of themselves or friends are respectfully invited to call and see the

Real Premium Pictures

(not those stolen or only by the advertiser) at Mr. McDONALD'S Rooms, No 3 Perrin Block, Calhoun street.

Instructions given in the Art, and Apparatus and Materials furnished on the lowest terms.

We, the undersigned, who attended the late State Fair at Lafayette, experience the satisfaction to bear testimony to the fact that the pictures exhibited by Mr. A. McDonald, Daguerreotype man, were universally admitted (so far as we heard any expression) to be far superior to any exhibited at the Fair.

About Medicine.

SEEING the world is full of new Medicines, if any person would introduce still another, in the midst of it, it would, what is to be done? There is nothing to do, it is the medicine is good, then we know all, only to wish to truth's sake, it, in plain language, let the article stand on its own merits, by speaking for itself through its cures. Of the purely natural Remedy obtained from a *Salt Well, 300 feet deep, in Pennsylvania,*

KIER'S ROCK OIL,

We do aver that as it cures various diseases, it will not be out of place to name the principal ones—although it is as much to say it will cure every body every time. Few, very few, however, among the multitudes now using it, are disappointed. Quoad ut is, both EXTERNALLY and INTERNALLY, it stands pre-eminent in relieving the sufferer of disease. There are various kinds of old Patent nostrums—offensive smell and taste. Many of the Liniments of the day (and as one very good) are compounded in part with some kind of Rock Oil. Hence it stands to reason that the Preparation can be had which can be sacrificed it must be good, and thus, *Kier's Oil*, having that advantage, in the very essence and quintessence of medicine. It doctors the whole man, from head to heel—inside and outside—inward and outward, and eradicates disease and the cause of disease—root and branch.

Just find in any this language, as the Proprietors are, from personal observation for the last two or three years, no well is from constantly accumulating testimony. Testimony—CAPITAL testimony, and we—yes, and verbal State testimony—we do not lack, if they could pack the result from the people—it would not be light.

IF YOU OBJECT

that it is said to cure too many diseases to be good.—We reply—We reiterate it honestly, but as it is—that it cures so many diseases—and it is so well its course—it is the good fortune of the afflicted. We suppose it is just as easy for NATURE to make a Remedy for the whole man as part of a man—she never leaves her work half done. Another thing—Nature does not have so many diseases as we think. Take for instance SCROFULA—or KING'S EVIL and all those diseases having their origin in a depraved condition of the blood, and our fields of the body,—this Oil will eradicate them with little cost. And yet there are perhaps a dozen different manifestations of Scrofula, in the same or in different persons—and some people call them different diseases, which will never give. It was the opinion of the late Dr. Rush, Philadelphia, that there existed in *Nature* an antidote to every malady to which man is liable.

Proclamation to the Invalids of Syracuse

$1,000 REWARD!

PULVERMACHER'S

Hydro-Electric Voltaic Chains

HAS for the first time introduced to the people of Syracuse and vicinity, that the most numerous, obstinate and inveterate chronic diseases made of instantly relieved and in a moderate time cured.

NERVOUS DISEASES.

Now we know that an announcement similar to the above meets the eye of the public, and it is, and perhaps there may be classed with many others. But before you decide against us, I feel constrained that Pulvermacher's Electric Chain is the only medical remedial agent that is covered by patent granted by the government, on the ground that it was a strictly medical and scientific article. The Chains are now on exhibition at the Drug Store of Mr. Gilbert and attest more than thousands who daily visit it.

MODE OF USE.

The manner of using the Chains is very simple. The chain is first immersed in hot water, and then one end of the chain is applied to the part where the pain is seated, and the other end opposite to the part. The ends of the chain should never come in contact. At the moment of application the most acute pain is instantly relieved, which never is located, by the passing through the part a current of gentle and exhilarating electric magnetism. In the following diseases, we have been cured in the city of New York, and we have received their names to be published for the benefit of those still suffering with similar complaints. The mode of treatment is simply to apply one of the 200 chains to the spine just above the hips, and the other end upon the abdomen, and allow the chain to remain for an hour. This is to be repeated four times during the twenty-four hours.

CURES PERFORMED BY THE CHAIN.

The Electric Chain never fails to relieve in every instance and nothing remains to be discarded. The most formidable diseases yielding to the application of a chain, and in no single instance have they failed to give instant relief, if they did not effect a permanent cure. All persons who are victims of this most painful complaint, are kindly invited to call and hear the testimony of Prof. Gunnings, agents for Syracuse, who will also explain their mode of use.

The electric chains can be sent by mail to any part of the United States, by addressing (post paid) any of the agents, the principal office, or Joseph Pulvermacher, 10 Broadway, New York.

CARD TO LADIES.

Ladies who are *enceinte* are requested not to wear Chains only for a few minutes at each application, for by long continued use miscarriage is frequently produced.

CAN BE EFFectually CURED BY

DR. HOOFLAND'S

Celebrated German Bitters,

PREPARED BY

DR. C. M. JACKSON,

No. 120 Arch St., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases of the skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most astonishing powers in weakness and affections of the digestive organs, they are mild, safe, certain and pleasant.

READ AND BE CONVINCED.

The Bitters mixture is, without doubt, the greatest medicine extant for diseases of the Liver and Bowels. A numbers case of Chronic Diarrhœa became under our notice, which after the patient had exhausted the Materia Medica of the different schools of medicine, with no apparent benefit. He was induced to use these bitters, and a few bottles of them entirely cured him. Many such cases we could refer to. We hope our readers will recollect this great restorative, should they be so unfortunate as to require the use. Dr. Jackson possesses the original unpublished receipt of Dr. Hoofland, and he prepares this medicine with great care. Those purchasing should call at his store, or see that his name is written upon the wrapper outside, and blown in the bottles, as imitations of all good articles are common.—*Philadelphia Democrat (German).*

Carter's Spanish Mixture,

The Great Purifier of the Blood.

NOT A PARTICLE OF MERCURY IN IT.

An Invaluable Remedy in Scrofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples on Face and Body, Pain in the Bones, Boils, Tumors, Sore Eyes, Blotches, Tetter, Scald Head, Enlargement and Pain in the Bones and Joints, Stubborn Ulcers, Sapiginous Disease, Lumbago, Blood Consumption, and all Diseases arising from an impure state of the Blood, in the decline of Life, or the Blood.

This valuable Medicine, which has become celebrated for the cures of certain hereditary diseases, has been in the proprietors, at the urgent request of their friends, to try it in the public, which they do with the utmost confidence in its virtues and wonderful properties. The following testimonies, selected from a large number, may, however, convince the most skeptical of the extraordinary properties of this medicine. Some of the most prominent cures of long standing in this place are the
